Pure and Safe

BPA-free Tritan, Silicone, and materials that meet certified food-safety standards. Antibacterial fabric applied to selected items for added hygiene.

Parent-friendly Use

Wide openings for easier cleaning and a non-slip bottom for safe daily use. Lightweight design made for tiny hands to hold comfortably.

Easy-Clean Structure

All parts are designed for easy disassembly and thorough cleaning. Baby food containers include detachable silicone and separable lid structures for complete hygiene.

Stage-adaptive Design

Lineups thoughtfully created for feeding (0M+), weaning (6M+), and toddler stages (15M+).

Feeding Stage 0M+

For the earliest moments of love — gentle, safe solutions supporting every part of a newborn's day.

Weaning Stage 6M+

Designed for little ones beginning their first tastes, combining food-safe materials with functions optimized for early self-feeding.

Toddler Stage 15M+

Independent dining solutions designed for little ones growing confidently on their own.
